## IMPORTANT SAFETY GUIDES

### READ AND FOLLOW ALL INSTRUCTIONS

- A) Extending Socket or other electric appliance is forbidden to be used inside the cabin.
- B) Any lock or latch system must not be fixed to the door of the sauna room, malfunction of which may cause entrapment inside the sauna room.
- C) Open the ventilation window if you feel choking when using sauna room
- D) Don't use infrared sauna when you are hyperthermia.

■ **The occurrence of hyperthermia:** Hyperthermia occurs when the internal temperature of the body reaches a level several degrees above the normal body temperature of 98.6°F (37°C).

■ **The symptoms of hyperthermia:** The symptoms of hyperthermia include an increase in the internal temperature of the body, dizziness, lethargy, drowsiness, and fainting.

■ **The effects of hyperthermia:** Failure to perceive heat. Failure to recognize the need to exit the room. Unawareness of impending hazard. Fetal damage to pregnant women. Physical inability to exit the room. Unconsciousness.

**WARNING: The use of alcohol, drugs, or medication may lead fatal hyperthermia.**

- E) Without authorization from the local electrical inspection institution, any modification to the sauna room is illegal.
- F) Warning: To avoid electric shock or burns, do not operate the sauna room unless heating safety guard is properly installed.
- G) Do not take any flammable materials into sauna room at any time to avoid fire.
- H) Other safety warning:
  - a) Exit immediately when feels uncomfortable, dizzy, or sleepy if stay in the sauna room too long time.
  - b) Supervise children and retarded persons when they are using sauna room at all times.
  - c) Pregnant woman, who in poor health or under medical care should follow the doctor's advice before using the sauna room.
  - d) Using sauna room will cause unconsciousness if over drunk or over taken medicines.
  - e) Please contact maintenance person if sauna room has problems
  - f) Disconnect sauna room power supply from wall socket before maintaining.

**THE MANUAL MUST BE KEPT AVAILABLE FOR FUTURE MAINTENANCE.**

## 1. Introduction

We welcome you to the most affordable traditional sauna in the nation! We also congratulate you on your new path to better health! Thousands of users enjoy the benefits of traditional saunas every day. Traditional saunas help you burn calories, reduce toxins, relieve pain and even clear complexions. Now you can enjoy the great benefits of traditional heat within the privacy of your own home.

We strive to deliver superior home health products at an affordable price. Our list of clients grows daily and we believe that your success is our success. Our staff has over 15 years of combined professional experience and is ready to provide you with excellent customer service.

## 2. Health & Beauty Benefits

**Relieve pain:** The heat energy of our traditional sauna accelerate the blood circulation and supply more oxygen to the body. Increased blood circulation diminishes inflammation, relieves pain, and speeds up recovery. Traditional saunas have also been used to treat bursitis, rheumatism, arthritis, and hemorrhoids. Increased blood circulation not only alleviates internal ailments, but also skin conditions such as psoriasis, eczema and scars. Good circulation is essential for smooth and firm skin.

**Burn calories & fat:** The steam of the traditional sauna eliminate extra salt and subcutaneous fat. Burn up to 600 calories in one half hour session versus a half hour of jogging which burns 300 calories, and a half hour of cycling burns 225 calories.

**Relax your body and mind:** It supplies you for a special environment with 30°C-85°C. It passes through your body, speed the metabolism, accelerate the blood circulation, bring the fresh oxygen and nutriment into the organization, the rubbish expel from body along with the sweat, renew the energy quickly, then relieve tiredness.

## 3. Highlights

- a. High quality craftsmanship
- b. Automatic thermostat for constant temperature
- c. Timer
- d. Digital sensor and automatic thermometer
- e. Heat stove

## Installation

### 1. Installation requirements

- Do not plug any other appliances into the outlet with your traditional sauna.
- Install the sauna on a completely level floor.
- Do not spray the exterior with water. If the floor is damp, install a floor separator to keep the sauna high & dry.
- Do not store flammable objects or chemical substances near the sauna .

## Operation

### 1. Precautions

- a. Check all the circuitry and the plug meet all requirements.
- b. Set the temperature and time to a comfortable level, normally, 60 minutes at about 80°C.
- c. Drink a cup of water before the sauna session.
- d. After 2 hours of continuous use, shut the sauna down for one hour.
- e. To avoid burns, do not touch the heating element.

### 2. Operation

- a. Plug the sauna into a outlet which is stated in nameplate. Do not share the outlet with any other appliances. Plug the unit into the outlet and use the ON/OFF switch to activate the sauna. Sauna should be unplugged when not in use.
- b. Turn the temperature button on the outer controller to set the temperature.
- c. Turn the 'time' button to set the using time.
- d. Press the 'light' button to turn the interior light on and off.
- e. After your sauna session, turn off, and unplug the power cable.
- f. See the user manual of sauna stove to use it.

## Warnings

### 1. Safety precautions

- a. To avoid fire, do not dry clothes or leave any towels in the sauna.
- b. To prevent burns or electric shocks, do not touch or use metal tools on the net cover of the sauna heater elements.
- c. While in the sauna, do not touch the light bulb. If the bulb needs to be changed, switch it off and wait until the sauna is shut off and the bulb is cool
